And a New One - Dress Goods

THIS is Chapter II of the French Wool Twills. Chapter I was printed day-before-yesterday. There were a little more than 5,000 yards then; there are a little more than 1,000 yards now.

You call the goods "Whipcords," and so does almost everybody. We do not, because we try to be accurate about such things. They are heavy, firm, all-wool fabrics, resembling, but not so heavy as, a real whipcord. No matter, you have always been glad to pay a dollar a yard for them. Take these at FIFTY CENTS A YARD. In black and 10 colors.

Then here are some very popular goods with a very unfortunate New Fine Japan Silks-white, name,—they are called "Potato Sacking." It is a rough, but not a coarse weave in black. It has a fine cheviot finish, and quite rich and Black Brocaded Gros Grainshandsome enough to live down its name. Forty-seven inches wide.

The \$1 grade for 45c. a yard.

The \$1.50 grade for 50c. a yard. And, lastly, these all-worsted black Serges, with a satin Bayadere Brocaded effects-light and dark. . . 39 New Military and Golf Capesstripe, -- a quietly effective material, and one stylish and not too common. Fancy Plaid and cheeked Satins-The same that have retailed all the season at \$1.25 a yard—
